

IIESL Headquarters Fund

The Institution of Incorporated Engineers, Sri Lanka has embarked on a great project, to build its' own five story headquarters building. The building is now under construction on a land allocated by the Government of Sri Lanka near Isurupaya Building at Battaramulla. The IIESL offices have now been moved to a temporarily building on this land.

On this journey of the IIESL, the first milestone had been met with on the 8th March 2012 with the laying of the foundation for the building by the then Hon. Deputy Minister of Finance, Geethanjana Gunawardena.

Eng Hemantha Jayasree Treasurer IIESL-UAE Branch presenting the cheque for Rs 1,000,000.00 to Eng Bandula Wimalasundara President of IIESL in the year 2007

Construction of this ambitious project will be a success if the “Headquarters Building Fund” launched by the IIESL becomes efficacious. On this context the financial support from the alumni of the IIESL becomes the primary requirement.

We are aware that the first step in raising a large fund is establishing credibility. In order to demonstrate our initiative in this campaign we, the members of the UAE Branch of the IIESL contributed Rs.1,000,000.00 (Dhs.33,000.00) to the Building Fund during our Annual General Meeting held in January 2007. That was just the initiation. Followed by this the inspired members continued to pour donations into the fund and coordinated with the members living in the Middle East region, had contributed Rs. 2,186,480.00 (refer details below) as of date.

The financial support of its alumni and friends is important to the Institution of Incorporated Engineers, Sri Lanka in this campaign. Please consider a contribution to this worthy cause in your charitable giving. Your contribution to the IIESL Building Fund can assist the Institution to have its' own headquarters building which certainly would improve the image of its members and its alumni. It would help us to give a hand to enhance the status of young professionals who would join the IIESL in future and the Institution itself.

It eventually becomes our responsibility to look back to our roots if we are to gain our future. In that context it becomes our duty and moral obligation as professionals to contribute generously towards this worthy cause.

As the Institution is in need of more funds to open its own headquarters building, we request you to contact one of the Committee Members of the Branch and confirm your donation.

“Look to your roots in order to reclaim your future”
